

HOW TO CLEAN EASIER AND FASTER IN 3 STEPS!

Daily use

a) Shake **blueFox2**.

b) Spray the **urinal and wall tiles**. Leave to work for a short time.

c) Clean the hard to reach places **under the rims** with the **blue-Fox S-brush** and then flush.

a) Briefly lift up the **blueFox1 bio-capsule**. Use the **blueFox S-brush** to also thoroughly clean the **urinal drain** and the **urinal rims**.

b) **Flush the bowl**.

There is no extra work for you. You clean as usual - just using other products!

a) Spray the **urinal and wall tiles**.

Dear Service Team!

You go to great lengths to thoroughly clean urinals and their surroundings. Now here comes the biology to support you at work, whilst helping nature at the same time. The drainpipes must never clog again, and the air should also be pleasantly fresh. In order to succeed with the blueFox system, it is necessary to observe the rules!

lean the floor in the entire sanitary area with blueFox3 cleaning water.

Never use chemical cleaners in combination with blueFox components.

THE PERFECT START. FOR THE LOVE OF OUR ENVIRONMENT!

Initial use

a) Shake **blueFox2**.

b) Spray the **urinal and wall tiles**. Leave to work for a short time.

c) Clean the hard to reach places **under the rims** with the **blueFox S-brush** and then flush.

a) Place the **blueFox powerpack** in the drain opening, press down until contact is made with water or pour water on top if necessary. **Intensive cleaning with the power foam starts after approx. 1 minute.** Leave to work for a short time.

b) Now **pour on 0.5 litres**, to ensure that the product reaches right down to the drainpipe. **Leave to work for several hours** – preferably overnight. **Flush.**

a) Spray the **urinal and wall tiles**.

b) Place a **blueFox1 bio-capsule** over the drain outlet in each bowl with the **semi-circle pointing up**.

c) Regulate the water volume for flushing to **0.3 litres**. **This achieves a 90% water saving** with every flush.

lean the floor in the entire sanitary area with **blueFox3** cleaning water.

Never use chemical cleaners in combination with **blueFox** components.
